

Nuffield Health, The Grosvenor Hospital Chester & Chester Knee Clinic Educational Seminars

2010 Update on Knee Problems

Date: Wednesday, 19 May 2010

Venue: The Grosvenor Hospital Chester, Wrexham Road, Chester, CH4 7QP

We are pleased to announce our next Educational Seminar, following the success of our series of educational seminars on running, cycling and skiing injuries. This year we will focus on injury prevention, early diagnosis and treatment of common knee problems and sports injuries. The seminar is primarily aimed at GPs and Physiotherapists. There will be an opportunity to discuss the subject of each talk and ask questions at the end of the seminar.

As a part of the Nuffield Health GP Learning Programme we will provide certificates for 3 hours CPD credits for the maintenance of a portfolio of learning for your appraisal and revalidation.
